ESA EPAWorkGroup Meeting spring2017 sl.pptx

Added my slides on the front half. I know they seem like a lot but I blow through most of them. I have a bit of context to the overall effort, but will mostly defer to Jen's slides. Also, they reformatted when I added them to the new design, so take a look to see if they are to your liking.

Sheena and Steve,

I've added in the graphics I want to use but kept the background the default. Steve, you have a background you have an EPA background you typically use on slides on presentation, right? If so, do you want to apply the background when you add in your slides.

Jen
